FOLLOWING IN THE FOOTSTEPS OF ANCIENT PEOPLES

The North Pacific Ocean and the Aleutian Islands have served as a unique land and water “highway” for millennia and are a remnant of the 1000-mile-wide Bering Land Bridge that enabled human migration from Asia to the Americas approximately 30,000 years ago. Waves of Paleoindian tribes from northern Japan and eastern Russia crossed the Bering Sea to Alaska and Canada’s northern territories, where they settled, intermingled and flourished. These clans expanded, moved south and spread throughout the Western Hemisphere; the lineage of the Native American nations can be traced back to these prehistoric explorers. The subtle markings of this ancestral heritage are evident today in the artwork, tools and methods of subsistence living that enabled these people to dwell in such remote wilds. Today, along the beautiful windswept islands and coastlines, one can still see the remains of native camps and artwork displaying the pride and craftsmanship of one of the world’s oldest cultures.

Tokyo, Japan

Once a small fishing village dating from 3000 B.C., Japan's capital city today is the world's most populous metropolis. Yet, at its heart you will find the inherent cultural core of the country's time-honored traditions and compelling history, where shrines wreathed in incense smoke and wooden houses fronted by bonsai trees exist in today's thriving business districts and amongst contemporary architectural achievements. The dignified Meiji Jingu, the city's most renowned Shinto shrine, is set among a tranquil 200-acre forest of broadleaf evergreen trees, while the Imperial Palace—surrounded by stone-walled moats—occupies the site of the original Tokugawa shogun fortress, once the largest castle in the world. Enjoy a panoramic view of the city five hundred feet above its kinetic streets on the Grand Observation Platform of the soaring iron-lattice Tokyo Tower.

Kushiro

The beautiful coastal port of Kushiro, located in the southeastern part of Hokkaido and facing the Pacific Ocean,

Puffins, noted for their distinctively colorful bills, nest throughout the Aleutian Islands.

is known as “the town of mist” and has been a base for deep-sea fishing for over a century. The thriving Washo fish market sells fresh seafood such as saury, hairy crab, salmon, shishamo (a type of smelt) and scallops. Nearby, the largest wetland in Japan, Kushiro Marshland, is renowned for its unique ecosystem, which can be

observed directly from a wooden walkway. It is home to about 600 plant species and offers habitats for migratory birds and the enormous Japanese crane, a traditional symbol of longevity.

Petropavlovsk-Kamchatka, Russia

Kamchatka, “the land of fire and ice,” is a designated UNESCO World Heritage site. The region played a strategic role in the defense of Russian territory and was closed off to the world for decades until after the collapse of the Soviet Union in 1991, resulting in the preservation of its vast, unique and pristine wilderness. Dotted with more than 300 volcanoes and inhabited by the world's largest brown bear population, Kamchatka is home to almost one third of the planet's Pacific salmon population and the powerful Steller's sea eagle, native only to this part of the world.

Petropavlovsk, located in one of the world's most spectacular settings at the edge of Avacha Bay, surrounded by wilderness sanctuaries and snowcapped mountains, is one of Russia's oldest towns. In 1740, the explorer Vitus Bering reached Avacha Bay and from here embarked on his voyage, which led to the discovery of the Aleutian Islands.

Transpacific Crossing

Cruising between port calls in the Kamchatka Peninsula and Alaska's Aleutian Islands, be on deck to look for marine wildlife such as orca and humpback whales, harbor seals, sea otters and one of the most dense populations of sea birds on Earth. Enjoy the ship's Six-Star amenities—onboard lectures, live entertainment, Relais & Châteaux® dining and exclusive L'École des Chefs culinary events, complimentary fitness classes, a casino, onboard spa treatments and stargazing. Or, simply wrap up in a blanket and relax on deck with a complimentary beverage of your choice while contemplating a panoramic view of the Pacific horizon.

Dutch Harbor, Alaska, U.S.

Dutch Harbor has a diverse history in which culture and commerce have coexisted since the mid-1700s. Located at the confluence of the North Pacific and the Bering Sea, Dutch Harbor is the only natural deepwater port in the Aleutian Islands and leads our nation in both volume and value of seafood caught with more than 800 million pounds processed annually for export.

Here, the Museum of the Aleutians exhibits native artifacts from these islands, which indigenous Aleut people have continuously inhabited for close to 9000 years, while military remnants testify to the area's strategic value during World War II.

Kodiak

Twenty thousand years ago, massive glaciers covered most of the Kodiak Archipelago; their retreat created scenic peaks, fjord-like bays and wide U-shaped valleys ideally suited for abundant land and marine life to thrive. These natural resources attracted the Alutiiq, Kodiak's first inhabitants, who practiced their subsistence lifestyle here as far back as the fourth millennium B.C. Russian fur trappers came to Kodiak in pursuit of sea otter pelts in the 18th century. Following the United States' purchase of Alaska a century later, Kodiak's economy shifted to whaling and salmon fishing, and today, its salmon- and cod-rich waters make it one of the busiest fishing ports in the country.

Explore the island's historic landmarks highlighting Native American and Russian legacies and experience a wildness that is matched in few other places on Earth.

Homer

Charming, colorful Homer sits amid lofty snowcapped mountains and blue glaciers on the beautiful Kachemak Bay, a sheltered arm of lower Cook Inlet. Archaeologists have identified that inhabitants have cooked mussels and clams on these beaches for thousands of years, beginning with the indigenous Inuit and Tanaina. In the 1800s, homesteaders and coal miners comprised the area's population. Today, however, Homer is known as the "halibut fishing capital of the world," and is home to an eclectic mix of fisherman, artists and outdoor enthusiasts drawn by a wilderness setting adjacent to the clear-water bay and the slower pace of life.

Seward/Anchorage

Enjoy a scenic transfer from Seward to Anchorage by rail car offering expansive views of magnificent Turnagain Arm and the Kenai Peninsula's towering snowcapped peaks and glacier-fed waterfalls. Watch for pods of orca or beluga whales feeding in the coastal waters and Dall sheep grazing along the steep cliffs bordering the train tracks.

Blanket tosses once allowed hunters to scan the horizon in search of whales, seals and caribou and more recently have served as a ceremonial end to the hunting season.
