

GALÁPAGOS

ABOARD NATIONAL GEOGRAPHIC ENDEAVOUR

10 Days | 9 Nights | 96 Guests | November 11-20, 2016

Traveling Aggies

"A little world within itself," as Darwin described it, where life-altering encounters with animals—curious, or sublimely indifferent to our presence—happen like nowhere else on earth. It's magical. Each island is different and diversely fascinating. And you'll explore the islands and habitats of this legendary volcanic archipelago aboard our intimate expedition ship, *National Geographic Endeavour*, waking each day to fresh experiences. We'll use our onboard fleet of nimble Zodiacs and kayaks to explore up-close and personally. Gain fascinating insights from our dedicated expedition team. Hike among the wildlife. Explore the vibrant sea —snorkeling and swimming daily with sea lions, sea turtles, and penguins. And, capture your experience in your best photos ever—with the help of our certified photo instructor.

November 11: U.S./Guayaquil, Ecuador

Depart U.S. and arrive Guayaquil by late evening; it's a short drive to Hotel Hilton Colón, where we spend the night.

November 12: Guayaquil / Galápagos / Embark

After the 1 1/2-hour flight to the Galápagos, we'll immediately board the ship. Over the course of the week, our exact routing depends on the National Park Service. (B, L, D)

November 13-18: Galápagos Islands

The following is a representative sample of the islands we may visit during your week on board: (B,L,D daily)

Bartolome

This is an enchanting landscape where lava, mangroves and golden sand converge. Great

walks and views abound, with a chance to snorkel with Galápagos penguins.

Santiago

Santiago offers close encounters with Galápagos fur seals along with an opportunity to study the inhabitants of the island's countless tide pools

Santa Cruz

Home to the Charles Darwin Research station; learn about the science done here and visit the neighboring captive breeding program for endangered species of Galápagos giant tortoises, run by their partners in conservation, the Galápagos National Park Service.

Isabela

A small black sand beach offers wonderful morning swimming. Enjoy a more challenging hike over rugged shoreline and a shorter walk within an iguana colony. Kayaking and deep water snorkeling opportunities are on offer.

Fernandina

This is the youngest island in the Galápagos and one of the most pristine tropical islands left on earth. Look forward to hikes over relatively recent lava flows, and spot marine iguanas, flightless cormorants, and Sally Lightfoot crabs.

Floreana

Snorkel among sea lions in the clear waters off Champion Islet. We may also find flamingos, pintail ducks and various shorebirds. Hike to a pristine white-sand beach, a favorite nesting site for sea turtles.

Española

The exclusive home to waved albatross (seasonal) and particularly colorful marine iguanas, Española is also a paradise for Darwin's finches, sea lions galore, and the famous blue-footed boobies. Snorkel and stroll along the island's lovely beaches.

November 19: Galápagos / Disembark / Guayaquil

Disembark and fly to Guayaquil. The late afternoon and evening are free to explore the city. Overnight Hotel Hilton Colón. (B)

November 20: Guayaquil / Home

This morning fly home. (B)
