### **The Aggie Ring**

For well over half a century, Texas A&M University has entrusted The Association of Former Students to protect and promote the cherished Aggie Ring tradition. The Association considers this a sacred responsibility and honor.

- The Aggie Ring has remained mostly unchanged since 1935. The only significant change occurred in 1963 when the lettering around the crest was changed from A&M College of Texas to Texas A&M University.
- In 2022, **15,344** Aggie Rings were delivered.
- The Association's Ring Collection contains Aggie Rings dating back to 1890.
- The first known Aggie Ring was created in 1889.
- Students in good standing, who have completed 90 cumulative undergraduate hours, including 45 resident hours, and have at least a 2.0 cumulative GPR, are eligible to order an Aggie Ring.
- Depending on their specific program, graduate students in good standing are eligible to order an Aggie Ring upon defending their thesis, upon the completion of 75% of coursework, or upon acceptance as a Ph.D. candidate.
- Specifics on the Ring Policy can be found at [tx.ag/AggieRingQualifications](https://tx.ag/AggieRingQualifications).
- Symbolism of the Aggie Ring
  - The Ring's shield symbolizes protection of the good reputation of the alma mater.
    - The 13 stripes in the shield refer to the 13 original states and signify the intense patriotism of Aggies.
    - The five stars in the shield refer to phases of development of the student: mind or intellect, body, spiritual attainment, emotional poise, and integrity of character.
    - The eagle represents agility and power, and the ability to reach great heights.

- The right shank of the Ring includes the Seal of the State of Texas, authorized by the Texas Constitution in 1845. The five-pointed star is encircled with a wreath of live oak leaves, symbolizing the strength to fight, and olive and laurel leaves, symbolizing achievement and the desire for peace. The leaves are joined at the bottom by an encircling ribbon to show to necessity of joining these two traits to accomplish one's ambition to serve.
- The left shank, with its ancient cannon, saber and rifle, symbolizes the fight of Texans for their land and their determination to defend their homeland. The saber itself represents valor and confidence, while the rifle and cannon symbolize preparedness and defense. The crossed flags of the United States and Texas recognize the dual allegiance to the nation and state.
