MySQL Setup

Step 1: Go to: http://hosting.aggienetwork.com/phpMyAdmin
Step 2: Login with your username and password when the window pops up.

Step 3: You should see a screen that looks similar to this, click the name of your database in the left hand navigation.
Step 4: Since this is your first time to use MySQL, you will be prompted to add a table to your database.

Step 5: Enter in the values and hit **Go**

For further information about phpMyAdmin, see their documentation site located at: [http://www.phpmyadmin.net/home_page/docs.php](http://www.phpmyadmin.net/home_page/docs.php)
