9-DAY ITINERARY
CRUISING THE PERUVIAN AMAZON

DAY 1
Lima (Peru)

Upon arrival at Jorge Chavez International Airport, you’ll be met and transferred to the ideally located Hilton Miraflores, with panoramic views of Lima’s malecon on the South Pacific Ocean.

DAY 2
Lima

After breakfast at the hotel, enjoy a panoramic drive through Miraflores and San Isidro with spectacular views of the Pacific Ocean and lush gardens such as the Parque Del Amor (Lovers’ Park). Visit the historic center of Lima and UNESCO World Heritage Site, Ciudad de los Reyes (City of Kings). Founded in 1535 by Francisco Pizarro as the capital of the Viceroyalty of Peru. In addition to seeing the Government Palace, Archbishop’s Palace, and City Hall, you’ll stop to visit the Church and Convent of San Francisco, one of the most significant religious sites in Lima. Visit the catacombs, which served as a burial ground until 1808. Stop at the Larco Herrera Museum, where an excellent overview of Peru’s ancient past can be experienced through a private collection of pre-Columbian art and access to the vault, which safeguards precious pieces of gold, silver, and semiprecious stones. Enjoy the rest of your evening exploring or at leisure. (B/L)

DAY 3
Iquitos/Embarkation

You’re free to sightsee on your own this morning until your flight from Lima to Iquitos. Originally inhabited by Amerindian hunter-gatherers, Iquitos was established as a port city during the Spanish Colonial era. In the late 19th century, an increase in demand for rubber drew large numbers of European immigrants to the area. While this “rubber boom” brought wealth and development it also had a devastating effect on the native populations, which is still felt today. Ride through the bustling city to the Itaya River port, where you’ll board the Amazon Discovery and gather for cocktails as we make our way into the Amazon River. [B/R/D]
**DAY 4**

**Monkey Island / Momon River**

This morning, you’ll awaken to the songs of Amazonian birdlife and the distinct calls from La Isla de los Monos (Monkey Island), home to eight species of endangered primates, including: howlers, capuchins, dusky titis, pigmy marmosets, and petite tamarins. After breakfast, we will board the skiffs and set off to meet with conservationists who are working to save monkeys that were orphaned or rescued from trade. Back on board, we’ll enjoy lunch and relaxing free time as we cruise to the Momon tributary and a visit to the village of the Bora people. Here, we’ll meet members of the Bora community, see their ceremonial lodge (maloca), and witness an exhilarating, stick-thumping, traditional dance performance. [B/L/D]

**DAY 5**

**Tahuayo River / Yarapa River**

Today, we will cruise the Tahuayo River tributary to a favorite feeding spot of the Pink River Dolphin. Also known as the boto, these intelligent creatures are the largest freshwater dolphins in the world. In addition to their pink color, they boast unfused neck vertebrae that allow them to turn their heads up to 180 degrees, enabling maneuverability among the underwater tree trunks. The Tahuayo is one of several “black water” rivers we’ll encounter on our journey, which get their color from tannins that leach into the water from the rich forest soil. After viewing the pink dolphins, you’ll have the chance to go for a swim in this unique environment. Back on board, we’ll enjoy lunch while we cruise to the Yarapa River. For this afternoon’s excursion, go ashore for a guided wildlife walk on the terra firma (un-flooded forest). [B/L/D]
DAY 6
Amazon Headwaters/
San Francisco Village/
Jungle Hike

This morning we will awaken in a historic place—the confluence of the Ucayali and Marañon rivers—where the mighty Amazon River is born. Before the heat of the day, we’ll set off for a short skiff ride to Piranha Caño (or Marayali Caño) to catch the early morning activity of the local wildlife. After breakfast, we’ll cruise to San Francisco Village, where our ship will be met by the local children of the Shipibo community. Accompanied by an expert guide and interpreter, we will visit their homes and school and peruse their embroidery and beadwork. After lunch on board, we’ll hike into one of the most biologically diverse rainforests on earth—where canopy trees, such as the Kapok (ceiba pentandra) reach up to 180 feet in height. During our walk, a naturalist guide will provide insights into rare medicinal plants and exotic birds such as the bluish-fronted jacamar, collared trogons, and red-capped cardinals. [B/L/D]

DAY 7
Yana Yacu Pucate River/
Nauta Caño Night Excursion

Today, we’ll begin with a skiff excursion into the pure, black waters of the Yana Yacu Pucate River (a protected area within the Pacaya Samiria Reserve). The largest wildlife preserve in Peru, Pacaya Samiria boasts more than five million acres of rich biodiversity—including more than 527 species of birds, 102 mammals, 69 reptiles, and 58 amphibians. After lunch, we’ll cruise quietly near the shores of Nauta Caño watching for wildlife. Then, we’ll board our skiffs and set off for a hidden lake and an exhilarating piranha fishing adventure. As the sun sinks lower in the sky and the jungle reflects on the surface of the water, you’ll see for yourself why Nauta Caño is known as the “mirrored forest.” After dark, we’ll embark on a night safari with powerful spotlights to help us see herons, spectacled owls, exotic frogs, tree boas, fish bats, and caimans. Back on board, we’ll toast a spectacular day over a delicious evening meal and indulge in late night stargazing. [B/L/D]
DAY 8
Santa Ana Village/Iquitos
This morning begins with a visit to Santa Ana Village, where we’ll be treated to an enchanting dance performance by the local children and have the chance to shop their arts and crafts. Back on the ship, we’ll enjoy a relaxing afternoon of scenic cruising as we return to the city of Iquitos where a special farewell dinner experience awaits at Al Frio y al Fuego, a floating gourmet restaurant and one of the city’s cherished jewels. Here, you’ll dine on the local cuisine of Chef Carlos Sebastiani while you savor stunning views of Iquitos at sunset. [B/L/D]

DAY 9
Disembark/Iquitos City Tour
This morning, we’ll disembark the Amazon Discovery and enjoy a panoramic city tour, viewing the wonderful houses from the days of the rubber boom including the Casa de Fierro (Iron House), which was designed by French architect Gustave Eiffel. Next, we’ll visit the Manatee Rescue Center, where you can see these gentle creatures up close, learn about the rescue efforts, and even hand feed them. Afterwards, you’ll transfer to the airport and say goodbye to the Amazon River as you catch your flight for home...or on to the Machu Picchu extension. [B]

HAIMARK Cares
At Haimark Affinity Travel, we understand the importance of working in partnership with others to ensure our operations make only a positive impact in the regions we visit. To that end, we have created the Haimark Cares initiative through which we work to identify reputable partner organizations within the local communities.

In the Peruvian Amazon, we have chosen to partner with the Manatee Rescue Center, where our guests are able to engage in up-close encounters with these gentle creatures and bond with them in a bottle-feeding experience. Similarly, our partnership with the conservationists on Monkey Island allows guests to interact with resident primates and learn about important rescue and reintroduction efforts. Both collaborations enable us to make a small but beneficial impact on the future of threatened and endangered species.
