Howdy, Ags!

Join us for this once-in-a-lifetime exploration of a land of incredible natural wonder, where glittering glaciers cap simmering volcanoes, ancient Viking ruins exist alongside the latest in geothermal technology and prolonged daylight melts into the lingering twilight. This is Iceland—a spectacular and ever-changing landscape that serves as a testament to the powerful natural forces that shape our planet.

During our specially designed seven-night circumnavigation of this extraordinary Nordic island nation, you will experience unimaginable scenery that exists nowhere else on Earth and encounter Iceland’s wondrous sights at close range. Cruise aboard the exclusively chartered, Five-Star, small ship MS Le Soléal, featuring only 110 Suites and Staterooms, with the ability to cruise into small ports inaccessible to larger vessels and to alter course and launch its Zodiac excursion vessels, as a kaleidoscope of wild, ethereal landscapes and mystery unfold before you.

Look for rare migratory birds, orcas and humpback whales; admire steaming geysers, rugged coastline and pristine beauty; and touch ice fragments calved from one of Europe’s largest glaciers. Visit Grímssey Island, crossing into the Arctic Circle, and cruise up close to Surtsey, Earth’s youngest island and a UNESCO World Heritage site. Explore the majestic and rocky vista of a former lava lake and marvel at dramatic Goðafoss, the “Waterfall of the Gods.” Discover centuries of mythic lore and epic sagas forged upon the land, and learn more about the enduring spirit of generations of coastal Icelanders—a warm and friendly people, whose love of nature, respect of resources and resilient character have kept them thriving here for centuries.

Don’t miss this unforgettable adventure through the wonders of Iceland, featuring included round-trip air from Boston, New York-JFK, Newark, Philadelphia and Washington-Dulles; or Low Air Add-Ons for an additional $200 per person from Chicago and Minneapolis or an additional $300 per person from Denver, Seattle and Portland, Oregon.* Make your reservation before January 9, 2017, while Early Booking Savings are still available!

Reykjavík, Iceland
Wednesday, August 2
This morning, arrive in Reykjavík, the world’s northernmost capital, inhabited by one-half of the country’s total population of 300,000. See the idyllic recreational sports area of Laugardalur, or Hot Spring Valley, where geothermal water keeps an Olympic-sized outdoor swimming pool open year round. Continue to the Pearl, Reykjavík’s remarkable landmark glass dome built atop six 10-story hot water tanks—an architectural wonder as well as an amazing feat of engineering—and admire a captivating view across the city from the dome’s observation deck. Tour the impressive National Museum for a comprehensive overview of Iceland’s history, culture and heritage. It exhibits nearly 3000 objects and artifacts dating from the A.D. 874 settlement through the present day. Visit the iconic Hallgrímskirkja, a towering Lutheran church and the tallest building in Iceland. Pass by the colorful, picturesque houses of central Reykjavík before boarding the M.S. LE SOLÉAL.

Please note that the ship’s cruising pattern and direction are dependent on weather conditions and are subject to change.

Vigur Island/Ísafjörður
Thursday, August 3
Enjoy the morning cruise to the awe-inspiring Westfjords. On charming Vigur Island—home to one single farming family and thousands of puffins, Arctic terns, black guillemots and eider ducks—where time seems to stand still, see the birds in their natural habitat and Iceland’s only windmill, built in 1840.

Visit the country’s smallest post office and enjoy coffee and cakes served by our island hosts in their well-preserved, 19th-century house.

This afternoon, cruise up the dominant fjord of this distinct and remote 14-million-year-old region, Ísafjörður’s Dýjúp (“deep”), defined by ruggedly stunning mountains. Near the town of Ísafjarður, visit the open-air museum of Ósvör to see restored traditional 19th-century fisherman’s huts and fishing equipment that vividly depict the harsh reality of the lives of generations of Iceland’s fishermen. Tour Ísafjörður’s Westfjords Heritage Museum to learn more about the vibrant coastal art and culture and fascinating maritime history of this remote outpost. Attend the Captain’s Welcome Reception this evening.

Siglufjörður/Akureyri
Friday, August 4
Iceland’s northernmost town, picturesque Siglufjörður is a small, historic fishing hub built from the success of the herring industry. Here, visit the award-winning Herring Era Museum and enjoy a lively, music-filled performance of historical herring salting methods. Afterward, sample traditional local herring and Icelandic schnapps.

Return to the ship for lunch and the unforgettable approach to lively Akureyri, nestled beneath the mountains of Eyjafjörður, Iceland’s longest fjord. Visit the monumental hilltop Akureyrikirkja (Church of Akureyri), which showcases an intricate stained-glass central window that once graced England’s Coventry Cathedral, and walk amid the extensive collection of flora blooming in the open-air Botanical Gardens.

Cover photo: The perpetual expansion of majestic Jökulsárlón lagoon is fed by the recurrent calving and gradual melting of luminous-blue icebergs from Breidamerkurjökull glacier.

Photo this page: Divine waterfall Godafoss punctuates the craggy lava fields and rich green pastures of northern Iceland’s Bárðardalur valley, its cascades misting the crystal clear waters of the glacial Skjálfandafljót River.
Húsavík for Lake Mývatn/
Arctic Circle/Grímsey Island
Saturday, August 5
Explore northern Iceland’s unique and extraordinary natural landscapes, stopping at Námaskarð, an unearthly, steaming field of boiling, sulfurous mud pots, and the distinctive pseudo craters at Skútustaðir, formed when hot lava flowed over the wetlands 2300 years ago. Walk among the surreal, almost eerie lava formations of Dimmuborgir, the mythic source of Icelandic folklore, and drive along the shores of cerulean Lake Mývatn, a birdwatcher’s paradise and a haven for many rare migratory birds and 14 species of Iceland’s bountiful wild ducks. Look for broods of the sleek harlequin duck and the black-and-white Barrow’s goldeneye, a remarkable bird species that nests nowhere else. Continue to Goðafoss, “Waterfall of the Gods.” According to legend, this spectacular waterfall earned its name when an Icelandic chieftain threw wooden statues of his Norse gods into its crashing waters, signifying his conversion to Christianity.

This afternoon, cruise to Grímsey Island, bisected by the Arctic Circle and the northernmost inhabited territory in Iceland. Visit quaint Grímsey Church, built out of driftwood in 1867. Officially cross the Arctic Circle, the top of the world, where the island is treeless but lush with grasses and mosses. Despite the remote Arctic latitude, its weather is mild year round. See thriving populations of seabirds, especially auks—their black and white coloring is similar to a penguin’s, but auks have the distinctive ability to fly above and dive into the Arctic water.

Day at Sea
Sunday, August 6
Today delight in a cruise along the east coast of Iceland, characterized by beautiful fjords, and attend educational lectures on board.

Djúpivogur for Jökulsárlón
Monday, August 7
Enjoy a full-day scenic excursion along Iceland’s stunning east coast from Djúpivogur to Jökulsárlón glacier lagoon.
Board a small boat for a private cruise amongst the breathtaking icebergs of this spectacular lagoon and actually touch the ice that has calved off the outlet tidewater glacier, Breidamerkurjökull. On clear days, look for the awe-inspiring Vatnajökull Ice Cap, Europe’s largest glacier.

Enjoy lunch in a local restaurant near the lagoon before a panoramic tour of historic Höfn, a small fishing village known for its stunning mountain views.

**Vestmannaeyjar** (Westman Islands) for Heimaey Island/
Cruise along Surtsey Island

**Tuesday, August 8**

Arrive at fascinating Heimaey Island, part of the Vestmannaeyjar archipelago, where the tall cliffs are inhabited by puffin, fulmar and guillemot bird species. Tour the fascinating Eldheimar Museum, which chronicles the fateful volcanic activity of 1973 that created Mount Eldfell. Then, see the incredible formation, also known as “Fire Mountain,” and its lava fields which are still warm to the touch even 40 years after its last eruption. Stop at the precipitous headland of Stórhöfði to observe Heimaey’s largest puffin colony and see the ruins of ancient Viking farmhouses dating from A.D. 650.

This evening, cruise along the coast of Surtsey Island, a UNESCO World Heritage site. Created during volcanic activity between 1963 and 1967, it is the youngest island on Earth and one of the most fragile; scientists are carefully monitoring the evolution of its flora and fauna.

This evening, join your traveling companions for the Captain’s Farewell Reception.

Land of Fire and Ice

A land of unparalleled geological riches and home to some of the most diverse phenomena on Earth, Iceland is comprised of 4500 square miles of glaciers, 15 active volcanoes, 10,000 waterfalls and 800 hot springs. Born of the monumental forces unleashed in the movement of the North American and Eurasian tectonic plates, and at the same time carved out by majestic, slow-moving glaciers, the land is a combination of intense natural energy and total calm. The island topography of Iceland as we know it continues to evolve, yet many of its landscapes have hardly changed since the first Viking settlers saw it more than 1100 years ago.

Iceland’s unique and beautiful geography is like nowhere else on Earth. During your circumnavigation, see volcanic craters and fissures; watch as bubbling hot springs send steam into the air against a backdrop of barren, Mars-like terrain; encounter snowcapped mountains and black lava desert; and come upon pristine, powerful waterfalls and the deep freeze of mammoth ice caps. Along the coast, Iceland’s characteristic fjords—deep inlets cut into the coastline—chronicle the pathways of its glaciers. All of these natural wonders are in constant flux, as glaciers calve and shift and new mountains emerge from the volcanoes’ lava flows. The result is a startlingly beautiful portrait of Earth in process—a raw, primordial landscape hewn by the forces of fire and ice.

Iceland is one of just a handful of places in the world to encounter the majesty of the geyser, a natural spring gushing steam and hot water.
