Discover a miraculous sea, teeming with life, ringed by desert islands alive with wildness. Baja California is like no other place—and much of it accessible only by small ship. Join us and immerse yourself in its splendid solitude.
HOWDY, AGS!

Baja California is a remarkable geography. It provides an opportunity to discover and revel in a pristine wilderness few people imagine exists in our North American ‘backyard.’ The Baja you explore is remote, wild, and untrammeled—and yet not far at all: a short hop from the West Coast. And for East Coast and Midwest travelers, Baja more than rewards your jet travel, especially in the winter with its desert warmth, beauty, scenic undersea, and amazing wildlife.

Roam freely aboard the brand-new National Geographic Venture, a nimble expedition ship ruled by wind, wave, and weather, and have the kind of experiences that only nature can provide. In winter, California gray whales give birth and raise their calves in the nursery lagoons of San Ignacio. Spend time among them, as you board Zodiacs for extraordinary up-close encounters with these gentle giants and their playful calves, who often surface to make heart-warming eye contact with you.

Explore the Sea of Cortez, where there are countless opportunities to experience a living sea. Observe dolphins by the score and encounter a variety of whales, including deep-diving sperm whales and perhaps even rare blue whales. Snorkel with sea lions, hike into cacti forests of surreal beauty, kayak along remote coastlines—and generally have the place to yourselves.

See, learn, and do more with a team of expert naturalists, including an undersea specialist, who know this area well. For photographers, this paradise offers extraordinary light to capture it all with the help of a Lindblad-National Geographic certified photo instructor.

Baja is one of those places on the planet that supplies the human spirit the tonic of wildness it needs. Few experiences are as rewarding. To reserve your place, please call us at 979-845-7514 or 800-633-7514, or return the enclosed reservation form.

Gig ‘em!

HAVE UP-CLOSE ENCOUNTERS WITH GRAY WHALES

You can whale watch in a number of places in the world, but only in Baja can you have a personal encounter—and you will have plenty of chances to get up close to these gentle giants. Gray whales migrate annually from their feeding grounds in Alaska to the nursery lagoons on the Baja California peninsula to give birth and nurture their young. Spend time among the mothers and their calves, observing them at water level aboard Zodiaks. They are often incredibly social and have been known to push their newborn calves up to the landing craft. Expert spotters and knowledgeable naturalists join you to ensure and enhance your experiences among these marvelous “friendlies”.

EXPLORE PRISTINE ISLES AND A LIVING SEA

On the other side of the Baja peninsula, in the Sea of Cortez, you discover the uninhabited desert islands that dot the clear blue sea. Search for a variety of whale species, scores of leaping dolphins, and diving seabirds. Hike a forest of giant cacti, kayak or paddleboard in protected coves, snorkel with sea lions, and join a naturalist aboard a Zodiac to observe the diverse birdlife along the shores. When you see Baja’s islands with their desert landscape, rugged cliffs, and white sand beaches reflected in an azure sea, you’ll understand immediately why they have been designated a UNESCO World Heritage site.

Opposite page (clockwise from top): California sea lions basking in the sun; gray whales, Laguna San Ignacio; the sea often erupts with scores of leaping dolphins; breaching humpback whale; frigatebird.
THE PERFECT MOBILE BASE CAMP TO DISCOVER BAJA

With generous decks that take full advantage of the sun and ocean breezes, and create front-row seats on the remarkable spectacle of marine life in Baja, the brand-new expedition ship National Geographic Venture is uniquely designed to make the most of being in this remote, soul-satisfying geography. The ship is more than comfortable, with spacious cabins, some with step-out balconies; generous windows, and top amenities. Inviting public spaces foster an atmosphere of camaraderie—the lounge, which accommodates the entire expedition community, is where evening recaps take place, and the casual dining room provides unassigned seating for easy mingling.

ONBOARD TOOLS FOR DEEPER EXPLORATION

Because there is much to discover here—cactus forests, desert islands, beautifully indented shores, a calm sea with vivid life beneath the surface, and more, Venture is equipped so you can explore. A fleet of Zodiacs lets you experience up-close encounters with whales, dolphins, and sea lions, and land on otherwise inaccessible uninhabited islands. Board one of the single or double kayaks for water-level views of the stunning scenery. Get up and out on a stand-up paddleboard for a personal adventure. Snorkeling gear for all aboard enables you to explore the thriving undersea. There’s even a hydrophone for whale listening and a Remotely Operated Vehicle (ROV) which can operate up to 1,000 feet below the surface.

Opposite page (clockwise from top): Sister ship to the National Geographic Venture, the National Geographic Quest launches a fleet of Zodiacs; kayaking in the calm water of the Sea of Cortez; snorkeling with sea lions; Zen out with yoga and meditation; beach barbecue and bonfire under the stars; go paddleboarding for a personal perspective.
TRAVEL WITH AN A+ EXPEDITION TEAM

Discover Baja with a veteran expedition leader and a team of naturalists well versed in the region’s flora and fauna. An undersea specialist/videographer shoots video for you to enjoy in the comfort of the ship’s lounge, maximizing your understanding of Baja’s incredible marine environment. A Lindblad-National Geographic certified photo instructor assists you in capturing moments at the heart of your experience. Plus, a wellness specialist helps enhance the relaxing and revitalizing benefits of life in this magical region.

IN A LAND WITH PERFECT LIGHT, SHOOT GREAT PHOTOS

Make the most of the unrivaled photo ops of Baja California’s wild islands, whales, dolphins, and seabirds with the Expedition Photography program. The onboard Lindblad-National Geographic certified photo instructor offers assistance, instructions, and shooting tips in the field. Their expertise will inspire you and help you improve your skills—no matter your current ability or interest level—and ensure you return home with incredible photos.

NEW—ONBOARD GEAR LOCKER!

The inaugural season of National Geographic Venture will feature the debut of the B&H Photo Video gear locker. Field test new glass, camera bodies, and more during your expedition.
DAY 1: DEPART US/SAN JOSE DEL CABO, MEXICO/LA PAZ/EMBARK
Upon arrival in San Jose del Cabo, transfer to La Paz and embark the National Geographic Venture. (D)

DAY 2: EXPLORING THE SEA OF CORTEZ
Today’s plan is flexible, exploring some of the many uninhabited islands in the Sea of Cortez. Search for whales among the islands of the southern Sea of Cortez, an area that has proven to be one of the best for finding blue whales, and often common and bottlenose dolphins. Explore the many uninhabited islands such as Isla San José or Isla San Francisco to walk among huge cacti and observe the diverse birdlife. Swim or snorkel with king angelfish, butterfly fish, damselfish and the beautiful parrotfish. (B,L,D)

DAY 3: LOS ISLOTES AND ISLA ESPÍRITU SANTO
At Los Islotes, don flippers, a mask, and snorkel (which we’ll gladly provide) and swim with curious sea lions.

Seeing gray whales in their natural habitat is one of the great delights of this voyage. In Laguna San Ignacio, venture out in small boats among these magnificent creatures. In the Sea of Cortez, search for a variety of whales, plus dolphins, blue-footed boobies, pelicans, cormorants, and magnificent frigatebirds. You’ll also snorkel among sea lions, join naturalists on hikes amid barrel cacti, and sculpted sand dunes, and see a variety of desert flora and fauna.
Enjoy a leisurely afternoon to swim, kayak, or hike at Isla Espíritu Santo. Brown pelicans, gulls, and boobies are all part of the landscape. Finish the day with a relaxing beach barbecue complete with a bonfire and a star-filled sky. (B,L,D)

**DAY 4: GORDA BANKS AND LOS CABOS**
Spend the morning aboard ship in the area of Gorda Banks seamount or La Fortuna, gathering places for whales, especially humpbacks, dolphins, and other sea life. Then choose to visit the historic town center of San Jose del Cabo or join a bird-watching walk along the local estero. This evening cruise past Friars Rocks at Land’s End. (B,L,D)

**DAY 5: AT SEA**
As you travel north along the Pacific coast of the peninsula, there is a chance to see a wide variety of marine life, including the largest animal on Earth, the blue whale. Hear naturalist talks and learn photography basics during a day at sea. (B,L,D)

**DAYS 6 & 7: LAGUNA SAN IGNACIO**
Protected since 1993 as part of UNESCO’s Whale Sanctuary of El Vizcaino, Laguna San Ignacio is one of the world’s most important breeding sites for California gray whales. Each winter, during their long migration, gray whales travel south from their Arctic feeding grounds to breed and raise their calves in these sheltered waters. Observe migrating whales from the ship and up close from local pangas and Zodiacs. Watch for osprey, Brant geese, and countless other breeding and migratory bird species, as well as bottlenose dolphins, during your explorations. (B,L,D)

**DAY 8: BAHÍA MAGDALENA**
Explore the ever-shifting sand dunes of Isla Magdalena on a cross-island walk to one of the most pristine beaches in the Pacific. Bird watching here can be excellent—magnificent frigatebirds, pelicans, cormorants, terns, great blue herons, ibis, whimbrels, and willets are among the species you might see. It is not unusual to see 40 species of birds in just one day along these fertile shorelines where they refuel for their destinations ahead. (B,L,D)

**DAY 9: SAN CARLOS/DISEMBARK/LA PAZ**
Disembark in San Carlos after breakfast and transfer La Paz for lunch at a local restaurant. Then check in to the CostaBaja Resort & Spa, located on the shore of the Sea of Cortez, just south of Espíritu Island. The rest of the afternoon is on your own to relax and take advantage of the resort and optional spa amenities. This evening enjoy a farewell dinner at the hotel. (B,L,D)

**DAY 10: LA PAZ/SAN JOSE DEL CABO/HOME**
After breakfast, check out in the morning and transfer to San Jose del Cabo for your flights home. (B)
Prices are per person, double occupancy unless indicated as solo.
