

Transitioning From Texas A&M Gmail to AggieNetwork.com Email

Overview

Congratulations on your recent graduation! Now that you are a former student, your Texas A&M Google Account will be deleted after a certain grace period. These instructions will help you claim your new AggieNetwork.com email account, set forwarding for your Texas A&M email addresses, and transfer your Gmail and Google Drive content to your AggieNetwork.com email.

If you wish to preserve content which other people shared with you through Google Drive, please ensure you “[add those files to My Drive](#)” before starting this process. Visit [TX.AG/SharedFilesHelp](#) for help with finding these files. Also note that content within Google Photos will not be transferred.

Claiming Your AggieNetwork.com Email Account

1. Visit [TX.AG/MyEmail](#).

If you are not already signed in to AggieNetwork.com, a login screen will appear. You will need to login to AggieNetwork.com to continue.

2. Enter your desired email address, create and confirm the password you wish to use for the email account, then click *Create Email Account*.

The screenshot shows a registration form titled "AGGIENETWORK.COM EMAIL". Below the title is the instruction "Create an @AggieNetwork.com Email Account". The form contains three input fields: "enter the desired email address" with a placeholder "my_email" and "@AggieNetwork.com" to its right; "create an email password (at least 8 characters)" with a masked password field; and "confirm password" with another masked password field. A green "Create Email Account" button is located at the bottom of the form.

Forwarding Your Texas A&M Email

1. Visit <https://gateway.tamu.edu/settings/email/forwarding/>

You will be prompted to login with your NetID and Password.

2. Select the bubble next to *Forwarded to*, enter your AggieNetwork.com email into the textbox, then click *Save*.

Transferring Your Texas A&M Gmail and Google Drive Contents

Note: Every time you copy files from your Texas A&M account with this process, a new set of copies will be created in your AggieNetwork.com account.

1. [Login to your Texas A&M Gmail.](#)

You might be prompted to login with your NetID and Password.

2. Visit takeout.google.com/transfer.
3. Provide your AggieNetwork.com email as the destination Google Account, then click *Send Code*.

The screenshot shows a web interface titled "Transfer your content". Below the title, it says "Copy and transfer your email and Google Drive files to another Google Account". To the right of this text are icons for Google Drive, Google Photos, and Gmail. The main section is titled "1. Enter a destination account". It contains the instruction "Enter the Google Account that will receive your transferred content. [Learn more](#)". Below this is a text input field labeled "Enter an email address" with the text "my_email@aggienetwork.com" entered. To the right of the input field is a small thumbnail image of a Google account profile page. At the bottom left of the form is a blue button labeled "SEND CODE".

Fig. 3 Provide your AggieNetwork.com email address.

4. [Login to your AggieNetwork.com email](#) with the password you created.

Note: The username and password for your AggieNetwork.com email account can be different than the password you use to access features on the AggieNetwork.com website. Visit TX.AG/MyEmail if you need to change your AggieNetwork.com email password.

5. You should find a verification email from Google in your AggieNetwork.com Inbox. Click the *Get confirmation code* link inside this email.

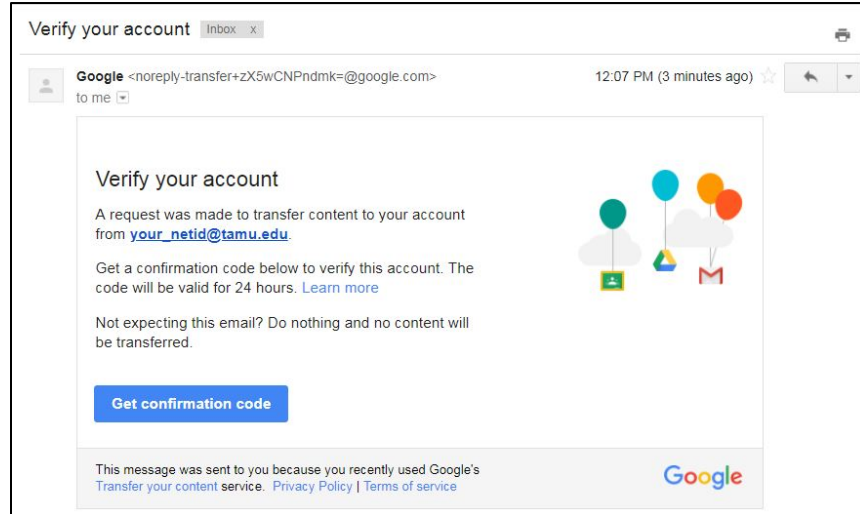

Fig. 4 Verification Email

6. Copy the confirmation code, then click *Continue*

After clicking *Continue*, you might be prompted to login with your NetID and password.

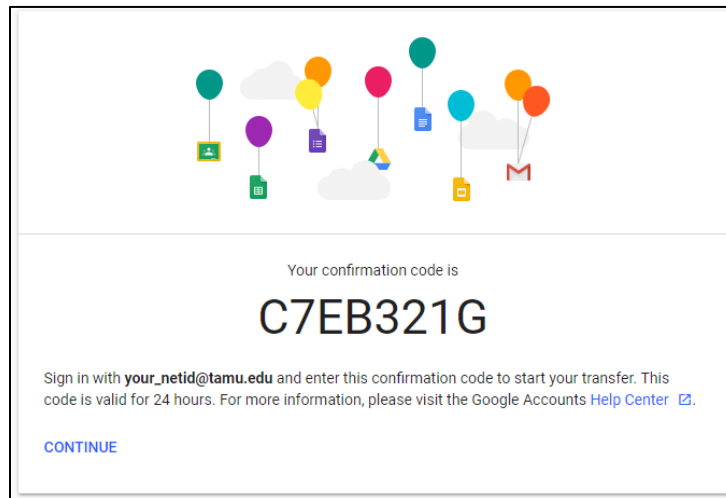

Fig. 5 Confirmation Code Screen

7. Paste your confirmation code, then click *Verify*.

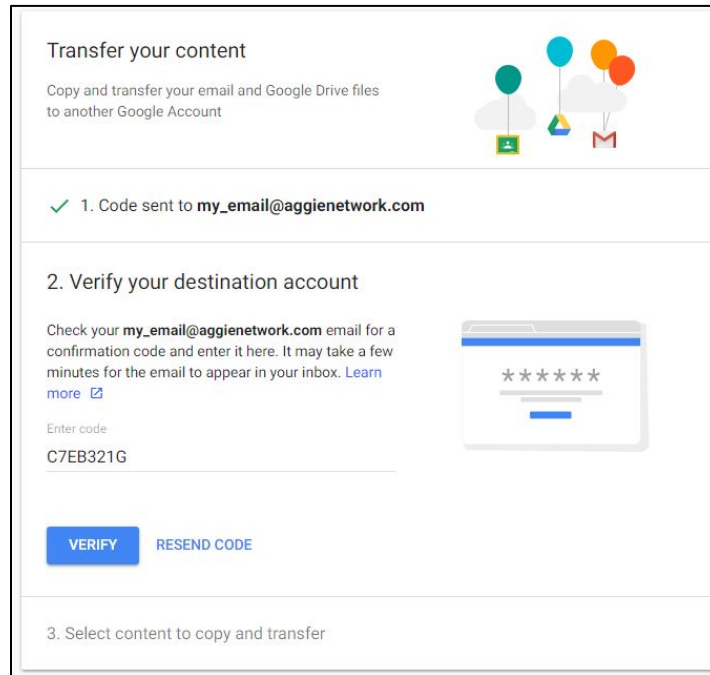

Fig. 6 Entering Confirmation Code

8. Choose the content you wish to copy and transfer, then click *Start Transfer*.

Depending on the size of your account, it could take anywhere from a few hours up to a week for the transfer to complete. You will receive an email from Google once the transfer is complete.

Transfer your content

Copy and transfer your email and Google Drive files to another Google Account

✓ 1. Code sent to **my_email@aggienetwork.com**

✓ 2. Account verified

3. Select content to copy and transfer

Choose the content you'd like to copy and transfer to the other account. People you've shared files with will still have access to the originals. [Learn more](#)
